

Why Enroll in ABPS?

Six reasons to have a Profile

1. You are an American Baptist leader in ministry and the Profile identifies you with the denomination and its process for appropriately sharing relevant information about its leadership.
2. It is the only place within the denomination where your gifts, skills and experience in ministry are recorded and available to others within the ABC.
3. Your gifts, skills and experiences are available to region and national groups seeking leadership for committees, task forces, workshops, retreats, etc.
4. It opens doors for women and racial and ethnic ministerial leaders—especially for specialized searches on the national and regional level.
5. It opens doors for all persons nationwide who are not widely known across the country.
6. You may want or need to move to a different place of ministry sooner than you think. The Profile is the primary means of introducing you to search committees within the ABC.
