

Summer Passionary Institute

This immersive cohort experience is for young adults who are seeking to discern their vocational path and engage with peers in a learning environment. This internship opportunity offers young adults practical experience at selected sites. The Institute is designed to align with existing areas of interest or introduce new possibilities for the participants.

Discern Your Vocation with ABHMS

In 2023, ABHMS launched the Summer Passionary Institute (SPI) as an 8-week vocational discernment cohort.

In 2024, we are expanding the experience by working collaboratively to coordinate a yearlong development process for selected young adult leaders.

ABHMS is committed to cultivating leaders, equipping disciples, and healing and transforming communities.

Embrace this opportunity to develop your skills and grow your network while helping serving others.
